PETROGRAD, Oct. 5.—With the entire Carpathian ion in the hands of the Russians, the advance forces of ssacks have cut the railway line at Cziget, a stroke ich virtually isolates a great portion of Hungary, and ninates in a large measure the menace of a flank move of the Hungarians.

All the passes in the great mountain range are now the possession of the Czar's troops, and the Cossacks sweeping southward with force, according to dispatches ching here today.

Fighting of violent nature is reported in progress all ig the Polish frontier, where attacks have been directed ainst the strongly entrenched German positions. Little vance has been made, however.

L. I., to the United Press).—Portugal is believed to be about to take part in the war at the demand of Great Britain on the side of the allies.

Advices show that a number of British steamers have arrived at Lisbon, and it is believed that they are to be used to transport Portuguese troops to the battle line in France, where the allies are being hard pressed by the Germans.

In addition it is known that Indian troops, who were landed at Marseilles, have been rushed direct to the front, where the British were in need of re-enforcements.

The British government has been using all its influence to get Portuguese support for its campaign, and now that the allies are being hard pressed at every point, it is believed that the British influence may be about to succeed.

The rushing of the Indian troops into action before they had any opportunity to become acclimated also shows how hard pressed the allies now are in France.

It is reported that the Roumanian Crown Prince has strongly rebuked the Russian sympathizers at Bucharest, and has insisted that Roumania continue neutral.

The Dutch government is strengthening forces along the frontier districts in order that they can disarm and intern the Belgian troops who are expected to flee from the vicinity of Antwerp, according to an official statement. In this connection the war office in discussing the Antwerp situation, says that forts Hierre, Waelhem, Koningshoefd, and the intermediate redoubts with thirty guns have been taken. Dealing with the campaign in the east, the German general staff says:

"Near Augustowa, the third Siberian and part of the twenty-second Russian army corps attacked the left wing of the Prussian army, crossing the Niemen river, and were defeated after a two days' furious battle. Over 2,000 unwounded prisoners and plenty of machine guns were captured."

Outcome in Doubt, Says Official Paris Statement-German Center Weakened As Every Available Man Is Rushed to Aid Hard Pressed Right Wing.

By WILLIAM PHILLIP SIMMS.

PARIS, Oct. 5.—The German offensive against the allied left wing continues with increasing violence.

This was the significant statement which overshadowed all else in the 3 o'clock official statement. And it also stated without equivocation that the result of this terrific battle continues in doubt.

That this should be so, is not surprising. The Germans continue to drain their other fighting units to pour re-enforcements into the lines of Generals von Boehn and von Kluck. They are fighting here to keep their offensive alive. When they are forced to retreat-and every military official here from General Gallieni down declares that they eventually must give way or be annihilated—they will have to retire entirely from France.

Because of the blow this would of necessity give to the fighting spirit of the German troops, the Germans are pouring every available man into the fight on the west. If von Boehn and von Kluck have to give way the impregnably entrenched German center would be immediately open to an attack from the rear, and it must fall back along with the German right.
